LINEAR MOTOR

LINX® M-SERIES

Highly Dynamic Motion Systems

AT A GLANCE

- Highly dynamic
- Continuous force range of 80N to 287N
- Peak force up to 1,200N
- Modular heatsink
- Integrated position feedback
- Pneumatics retrofit friendly

THE LINX® RANGE

Zero net attractive forces improve efficiency with no down force, extending machine life.

LINX® IS BETTER

Our cylindrical linear motor design provides improved performance at a lower cost when compared to conventional flat linear and rotary motors.

FIT YOUR APPLICATION

The LinX® linear motor range are available in a variety of different sizes to allow for application specific solutions.

PROTECTION IS KEY

The motors are fully sealed rated to IP66, ensuring they are perfect for automation, machine tool, and food processing systems.
